

Chenliang Wins Best Abstract Award

Four Department of Pathology Principal Investigators (Yingfei Wang, Peter Ly, Ram Mani, and Diego Castrillon) gave oral presentations at the Texas Conference on Genome Repair, held on October 2-4 in San Antonio. Dr. Chenliang Wang, a post-doctoral fellow in Yingfei Wang's lab, also gave an oral presentation for work selected as the best abstract at the conference.

This research on the role of KDM6B/Parthanatos in PARP signaling was co-led by Drs. Mingming Yang and Chenliang Wang and recently published in *Nucleic Acids Research*. Congratulations on this well-deserved recognition!!

Dr. Chenliang Wang receiving award certificate from conference organizer, Dr. Patrick Sung.
